NixStix CB/NB FastDry

Product Features

NixStix CB/NB FastDry is a specially formulated with a light aliphatic solvent naphtha for fast dry. This flammable blend contains no chlorinated solvents, no HAP listed solvents and has not been shown to contribute to ozone depletion. NixStix CB/NB FastDry cold box release agent designed for application to aluminum, urethane or metal patterns and core boxes. This product can be expected to furnish multiple releases from each application with a minimum of film buildup on core boxes and tooling. NixStix CB/NB FastDry contains no chlorinated solvent and is suitable for a variety of cold box processes.

Product Description

Physical Properties

Appearance	Clear colorless liquid
Specific Gravity	0.65 - 0.75
Odor	Solvent odor
Flash Point	7° F

Product Application

Inspect the core box or pattern to insure that it has been adequately cleaned. Spray a uniform light coat of NixStix CB/NB FastDry onto the surface and into cavities. Frequency of application will depend on core complexity and the condition of the tooling. The application interval should be such that film buildup is minimal.
