PROTECTIVE PLASTIC

BLUE SHEETING

With Norton Blue Sheeting, paint will adhere to the outside layer of plastic, eliminating paint flake-off. Therefore, Blue Sheeting can be cut and taped along the critical edge, replacing the need for masking paper.

All sizes come on a standard core to fit all current plastic masking dispensers, so one person can mask the vehicle alone. The cling of the Blue Sheeting makes it easy to handle as it covers the area that is to be protected. This tri-layer plastic is .4 mil thick.

PREMIUM PERFORATED TRIM TAPE

Trim masking tape is designed to lift the molding from the surface to be painted to allow paint coverage under the molding. This tape works well on flush mount windshield, sidelight and back glass moldings. It is perforated for easy tear-off and is flexible to follow contours and tight curves.

FEATURE

- Two plastic strips on the roll (9mm & 11mm)
- Perforated every 40mm (1-1/2")
- No Liner
- Easy Lifting Tab

BENEFIT

- One size fits all
- Reduce inventory to one size
- Can double over for better support on rigid moldings
- Take just what you need for the job
- Quick application, no cutting tool needed
- Work around tight corners easily with individual pieces
- Quick application
- No waste to dispose of
- Quick removal
