

CROSS REFERENCE GUIDE

Clemlite® Silicon-carbide-lined Nozzles

This cross reference guide is provided to help distributor purchasing personnel identify stock numbers for future orders, thus transitioning to the new nozzle models.

Concurrent with the introduction of Clemlite® rubber-jacketed nozzles, all urethane-jacketed nozzles are being discontinued. All orders in house will be fulfilled; but no orders for future delivery will be accepted.

NOTE: A few Clemlite® nozzles are being discontinued, specifically, Clemlite® no. 3 (3/16" orifice) nozzles (SSR-3 04702 and SMR-3 04538) and Clemlite® flange-attachment-style nozzles (SFR series 04732-04734).

If a nozzle you routinely order is discontinued, the following substitutions are offered: for Clemlite®-lined nozzles, substitute SSD nozzles for SSR; and SMD for SMR; these are similar Clemlite®-lined model with a metal jacket. For rubber-jacketed nozzles, substitute TMP, rubber-jacketed tungsten-carbide-lined nozzles for SMR nozzles.

Urethane-Jacketed Nozzles				New Rubber-Jacketed Nozzles		
3/16" Orifice						
Model	Stock No.	Status	Washer			
SSR-3	04702	Discontinued
